Independent Auditor's Report	1 - 2
Schedule of Pension Amounts	3
Notes to Schedule of Pension Amounts	4 - 11

#### **Independent Auditor's Report**

To the Members of the West Virginia Consolidated Public Retirement Board Charleston, West Virginia

#### **Report on Schedule of Pension Amounts**

#### **Opinions**

We have audited the net pension liability (asset), total deferred outflows of resources, total deferred inflows of resources and pension expense (offset) included in the schedule of pension amounts (the Schedule) of the West Virginia Natural Resources Police Officers Retirement System, administered by the West Virginia Consolidated Pubic Retirement Board, as of and for the year ended June 30, 2024, and related notes.

In our opinion, the accompanying Schedule referred to above present fairly, in all material respects, net pension liability (asset), total deferred outflows of resources, total deferred inflow of resources, and pension expense (offset) for the West Virginia Natural Resources Police Officers Retirement System as of and for the year ended June 30, 2024, in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Schedule section of our report. We are required to be independent of West Virginia Consolidated Public Retirement Board and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Other Matters**

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of West Virginia Consolidated Public Retirement Board as of and for the year ended June 30, 2024, and our report thereon, dated October 11, 2024, expressed an unmodified opinion on those financial statements.

#### Responsibilities of Management for the Schedule

Management is responsible for the preparation and fair presentation of the Schedule in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the Schedule that is free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibilities for the Audit of the Schedule

Our objectives are to obtain reasonable assurance about whether the Schedule as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the Schedule.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the Schedule, whether due to fraud or
  error, and design and perform audit procedures responsive to those risks. Such procedures
  include examining, on a test basis, evidence regarding the amounts and disclosures in the
  Schedule.
- Obtain an understanding of internal control relevant to the audit in order to design audit
  procedures that are appropriate in the circumstances, but not for the purpose of expressing an
  opinion on the effectiveness of West Virginia Consolidated Public Retirement Board's internal
  control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant
  accounting estimates made by management, as well as evaluate the overall presentation of the
  Schedule.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control—related matters that we identified during the audit.

#### Restriction on Use

Our report is intended solely for the information and use of the West Virginia Consolidated Public Retirement Board's management, the West Virginia Resources Natural Resources Police Retirement System's participating employer and their auditors and is not intended to be and should not be used by anyone other than these specified parties.

#### West Virginia Natural Resources Police Officers' Retirement System Notes to Schedule of Pension Amounts

#### 1 - NATURE OF ENTITY

The West Virginia Natural Resources Police Officers Retirement System (NRPORS) is a single employer defined benefit public employee retirement system, was established for all natural resources police officers hired by the West Virginia Division of Natural Resources (DNR) on or after January 2, 2021. The NRPORS was also made available to any natural resources police officers employed in covered employment participating in the West Virginia Public Employees Retirement System on the effective date so long as he/she made notification in writing before September 30, 2020, to both the DNR and the Board of his/her desire to transfer to the NRPORS.

The West Virginia State Legislature created the Consolidated Public Retirement Board (the Board) to administer ten of the State of West Virginia's eleven retirement plans. The Board is managed by a Board of Trustees, which consists of, by virtue of their position, the Governor, State Auditor, State Treasurer, and Secretary of the Department of Administration, together with the following gubernatorial appointments that are subject to the advice and consent of the State Senate: four residents of the State who are not participants in the retirement plans, one State and one non-State employee participant in the Public Employees' Retirement System, and one participant each from the other nine retirement systems administered by the Board.

Chapter 20, Article 18 of the West Virginia State Code assigns the authority to establish and amend the provisions of the plan to the West Virginia Legislature.

#### West Virginia Natural Resources Police Officers' Retirement System Notes to Schedule of Pension Amounts

#### 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

<u>Introduction</u> - The Government Accounting Standards Board (GASB) Statement No. 68, *Accounting and Financial Reporting for Pensions*, establishes financial reporting requirements for governments that provide employees with pension benefits. GASB Statement No. 68 requires governmental employers to recognize pension expense and a net pension liability and/or a net pension asset as employees earn pension benefits.

Basis of Accounting - The schedule of pension amounts of NRPORS have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The GASB is the accepted standard setting body for establishing governmental accounting and financial reporting principles for governmental units.

<u>Accounting Estimates</u> - The preparation of the schedule of pension amounts in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of the net pension liability, deferred inflows of resources, deferred outflows of resources, and pension expense as of the measurement date. Actual amounts could differ from those estimates.

<u>Investments</u> - All defined benefit plan funds not required to meet disbursement needs are invested in accordance with the West Virginia Code, as well as policies established by the West Virginia Investment Management Board (WVIMB). The WVIMB has established various investment pools to provide for the investment of the defined benefit plans' assets. These investment pools are structured as multiparticipant variable net asset funds.

The WVIMB was organized on April 25, 1997, as a public body corporate created by *West Virginia Code Section 12-6-1* to provide prudent fiscal administration and investment management services to designated state pension funds, the state's Workers' Compensation and Coal Workers' Pneumoconiosis funds, and certain other state government funds. The WVIMB is governed by a Board of Trustees, consisting of thirteen members. The Governor, the State Auditor, and the State Treasurer are ex officio members of the Board of Trustees. The Governor appoints all other WVIMB Trustees for a term of six years.

<u>Measurement Date</u> - Total pension liability, net pension liability, deferred inflows of resources, deferred outflows of resources, and pension expense were determined by actuarial valuations as of July 1, 2023, rolled forward to June 30, 2024, which is the measurement date.

#### 3 - AMORTIZATION

The net difference between projected and actual investment earnings on pension plan investments is amortized over a five-year period. All other deferred outflows of resources and deferred inflows of resources relating to pension amounts reported in the schedule are amortized and included in pension expense over the average expected remaining service life of 10.21 years.

#### 4 - PENSION EXPENSE

The components of pension expense for the year ended June 30, 2024 (in thousands):

Service cost	\$ 1,311
Interest cost	2,466
Projected earnings on plan investments	(2,049)
Employee contributions	(771)
Recognition of current period deferred outflows/inflows:	
Change in benefits	461
Differences between expected and actual experience	314
Differences between projected and actual investment earnings	(240)
Recognition of prior years' deferred outflows/inflows:	
Change in assumptions	174
Differences between expected and actual experience	(164)
Differences between projected and actual investment earnings	(660)
Other changes in fiduciary net position	 (95)
Total pension expense	\$ 747

#### 5 - NET PENSION LIABILITY (ASSET) AND ACTUARIAL INFORMATION

The net pension liability (asset) is the portion of the actuarial present value of projected benefit payments related to past periods, net of the fiduciary net position.

The components of the net pension liability (asset) as of June 30, 2024, are as follows (in thousands):

Total Pension Liability (Asset)	\$39,848
Fiduciary Net Position	(32,119)
Net Pension Liability (Asset)	\$ 7,729

Fidcuiary Net Position as a percent

of Total Pension Liability 80.60%

#### 5 - NET PENSION ASSET (LIABILITY) AND ACTUARIAL INFORMATION (Continued)

The total pension liabilities for financial reporting purposes were determined by actuarial valuation as of July 1, 2023 and rolled forward to June 30, 2024 using the actuarial assumptions and methods described, as follows:

Actuarial cost method Individual entry age normal cost with level percentage of

payroll

Asset valuation method Fair value

Amortization method Level dollar, fixed period Amortization Period 30 years from July 1, 2021

Actuarial assumptions:

Investment rate of return 7.25%, net of investment expense

Projected salary increases 4.25-5.75% Inflation rate 2.75% Discount rate 7.25%
